Are you familiar with the rules regarding Tax Credits for Donations?

You can claim tax credits for the amount of your donations, provided they do not exceed 75% of your net income for the year.

You must determine the amount of donations for which you would like to receive a refund. For any year, you can include:

- donations made before December 31st of the year;
- all donations that have not been claimed and were made within the last five years;
- all donations that have not been claimed by your spouse in the year or within the last five years.

You therefore have 5 years to spread out your donation, depending on what is most advantageous for you.
